

Quality Policy

Beldam Crossley Limited has a proud history, the origins of which date back to 1876. During that time we have achieved an unrivalled reputation for the design and manufacture of Seals, Gaskets, Jointing, Gland Packing's, Obturators, PTFE Slide Bearings and Skid-way Plates, high temperature Flexible Seals, Rubber and PTFE components and Over-braided products

We service customers from around the globe in industries such as Aerospace, Chemical, Water, Oil, Food, general engineering, offshore and Marine

To ensure we continue to thrive as a business, it is our policy to provide and deliver consistent, high quality products on time and to meet, or exceed, specified customer requirements, whilst also meeting our obligations to statutory and regulatory requirements

Top management are committed to driving continual improvement based upon strategic direction, reliable business processes, best practices and customer feedback, taking into account organizational context, interested parties needs and expectations and risks and opportunities

Beldam Crossly Ltd operates a documented Quality Management System that complies with AS9100 / ISO9001 that ensures a systematic and disciplined approach by all employees

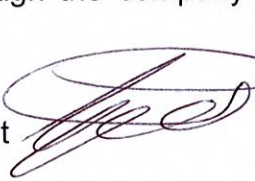

The Directors have assigned responsibility throughout the organisation for implementing and maintaining the Quality System procedures, policies and processes, which are continually reviewed and improved, and are committed to ensuring the availability of appropriate resources, as required, in order to enable the company to meet its quality objectives

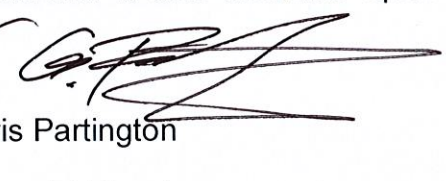

All employees are made aware of the aims and objectives of the Quality Management System and associated procedures and are expected to adhere to these requirements. Participation from our staff is encouraged to offer suggestions to aid in the continual improvement of our Quality Management System

As appropriate, customers, visitors and contractors are required to acknowledge and adhere to the company's Quality Policy and relating procedures

The Quality Policy is communicated via company notice boards, staff induction and training. It is available to any other interested party through the company website and is also available upon request
